***Alcohol and Drug Studies***

San Jose City College offers both an Associate of Arts and an Associate of Science Degree in Alcohol & Drug Studies. Students planning to transfer should follow the Associate in Arts Degree. The San Jose City College Chemical Dependency Certificate program is designed to meet the California Association of Alcohol & Drug Counselor (CAADAC) requirement of:

- 315 Hours of approved Alcohol and Drug training education
- 255 Hours of Supervised Practicum

Completion of the above requirements prepares students to sit for the written examination given by CAADAC, which is the first step toward certification. Following completion of the written exam, CAADAC Interns are required to document 4,000-6,000 hours or 2 years full time supervised work experience as a drug and alcohol counselor. Completion of 4,000-6,000 hours will entitle interns to apply for the oral examination given by CAADAC. When both the written and oral examinations have been successfully completed, the California Certification Board of Alcohol & Drug Counselors awards the following certification:

- Certified Alcohol Counsel (CAD) - 4,000 hour level
- Certified Alcohol & Drug Counselor (CADC) - 6,000 hour level
