   The committee began to align each KPI with corresponding accreditation standards. The task was to figure out where the data will go in the accreditation report and site the standard with the corresponding KPI. The committee had discussion on how broad or specific it should be in terms of assigning standards. The group consensus was to keep things broad.

   Sean asked the committee to continue to work on the alignment of KPI’s and accreditation standards and we will continue the discussion at our next meeting.
