

Implementation Roadmap

Training

We hold in-person and online training

Data Template

Program, curriculum, and employer data is collected via template

Configuration

Your data is uploaded into the platform and we configure your admin account.

Launch

Pre-launch Demo/Training

Student Onboarding/Training

Students can self-register or can be uploaded in bulk. Students are welcomed then granted immediate access to their dashboard and available pathways.

Job Matching

We match prepared students to thousands of jobs from local employers.

Tracking and Reports

Admins can track student progress, job matches and outcomes. Customized reports are available to export from the admin dashboard.
