

CHAPTER 7 —

TRANSFER TO FOUR-YEAR INSTITUTIONS

IN THIS CHAPTER:

- TRANSFER ADMISSION AGREEMENT (TAA)
- ADMISSIONS TO THE UC CAMPUSES
- INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC)
- LOWER-DIVISION TRANSFER PATTERN (LDTP)
- ADMISSION TO THE CSU SYSTEM
- CALIFORNIA ARTICULATION NUMBER SYSTEM (CAN)

Students who are planning to transfer from San José City College to a four-year college or university should plan their program to include both general education requirements and the specific major field requirements of a specific college or university. Students should work closely with their counselor in order to make the most appropriate course choices. Careful planning will permit transfer with junior standing, upper division status, to a four-year institution after two years of full time study at San José City College. Lower division requirements vary considerably from college to college. With careful planning, students can avoid taking classes that do not meet their requirements. Students should consult the current catalog of the institution to which they intend to transfer or view transfer requirements at www.ASSIST.org. Catalogs of the major universities and colleges are available for reference use in the Library and the Career/Transfer Center located in the Student Center.

TRANSFER ADMISSION AGREEMENTS (TAA)

GUARANTEED ADMISSIONS

San José City College and eleven participating four-year institutions are offering a Transfer Admission Agreement (TAA) Program for students planning to transfer as juniors to four-year colleges and universities. The TAA Program is for students desiring to have an early confirmed guaranteed admission for the Fall semester transfer.

- Students will have early confirmation of guaranteed admission.
- Students are registered in the Career/Transfer Center as a transfer student, making them eligible to participate in workshops relating to transfer.
- TAA student's San José City College transcript, General Education and IGETC Certificate are automatically sent to the four-year institution.
- TAA student's name will be added to the transfer mailing list to receive updated information relating to transfer (i.e. Writing Skills Test (WST) information, etc.).
- The \$55 application fee is waived at some CSU's participating in the TAA program.

TAA Participating Institutions:

- University of California, Davis
- University of California, Irvine
- University of California, Riverside
- University of California, Santa Barbara
- University of California, Santa Cruz
- California State University, East Bay
- California State University, Monterey Bay

- San Francisco State University
- San Jose State University
- Santa Clara University
- National Hispanic University

ADMISSION TO THE UNIVERSITY OF CALIFORNIA — ALL CAMPUSES

TRANSFER ADMISSION REQUIREMENTS

The University of California considers you a transfer applicant if you graduated from high school and enrolled in a regular session at another college or university. Students cannot disregard their college record and apply as a freshman.

The University welcomes transfer students. It has worked hard in recent years to strengthen relationships with California community colleges and to develop programs to help community colleges students with the transfer process. In 2005-2006 more than 14,000 students transferred from the California community colleges to the University, and close to a third of the UC bachelor's degrees were awarded to students who started out at the community college.

To transfer to UC, students must become eligible for admission to the University, prepare for upper-division study in the chosen major, and complete an appropriate set of general education course requirements and electives to earn a total 60 semester units with a GPA at least 2.4.

If students plan to attend a California community college before applying to the University, they should take courses that are transferable, that satisfy University and college requirements, and that fulfill prerequisites in their major. The counselor can help students in their planning.

The University publishes a booklet especially for transfer applicants called "Answers for Transfers". It is available in the Career/Transfer Center located in the Student Center.

Students who plan to transfer to the University of California should plan their program at San José City College to include required freshman and sophomore (lower division) courses of the University campus of their choice. Specific details regarding breadth and major requirements are outlined in the general catalog of each campus, in other publications of the University, or online at www.ASSIST.org.

University of California College Bulletins and other publications are available for reference use in the Library and the Career/Transfer Center in the Student Center. Students are encouraged to consult a counselor for help in the use of these materials to assure that their choice of courses at San José City College will fulfill both major and breadth requirements of the campus of their choice.

CALIFORNIA RESIDENTS

If you were not eligible for admission to the University when you graduated from high school because you did not meet the

Scholarship Requirement, you must:

- A. Complete 60 semester units of transferable college credit with a grade point average of at least 2.4 (no more than 14 semester units may be taken Pass/Not Pass), and;
- B. Complete the following course pattern requirement, earning a grade of "C" or better in each course:
 - two transferable college courses (3 semester units each) in English composition, and;
 - one transferable college course (3 semester units) in mathematical concepts and quantitative reasoning, and;
 - four transferable college courses (3 semester units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, and the physical and biological sciences.

Students who satisfy the Intersegmental General Education Transfer Curriculum, IGETC, prior to transferring to UC may satisfy part 2 of the transfer admission requirements.

In addition to these eligibility requirements, the University has specified additional requirements and rules about transfer GPA for transfer applicants.

TRANSFER PLAN

Top priority should be given to selecting courses that will satisfy the minimum eligibility requirements. Second, a student should prepare for upper division work in his or her chosen major and fulfill any specific application or screening procedures for the selected major or campus. Refer to ASSIST.org for campus specific information.

COURSE SEQUENCES

When requirements are stated as a full-year sequence, students should complete the entire year before transferring, not just one semester course. It is ideal to complete the sequence at the same community college. Since all UC campuses except Berkeley and Merced are on the quarter calendar, the combination of semesters and quarters in meeting a year long requirement may cause problems. Also, the topics covered in particular semester or quarter of the sequence at a community college may not be the same as at the UC campus.

DEADLINES FOR COMPLETING COURSES REQUIRED FOR ADMISSION

Prospective transfer applicants planning to meet the University's minimum admission requirements for California residents must satisfy certain aspects of the requirements by the end of the spring term preceding fall enrollment at some UC campuses. If the prior spring term is not specified, students are permitted to satisfy the requirement during the preceding fall enrollment, although they are strongly encouraged to complete the courses earlier. Contact

the UC campus Admissions Office for information about course completion deadlines for applicants for the winter and spring terms.

TRANSFER GPA

The average GPA varies widely by campus and by major. Consult with your counselor or a UC campus representative to learn about the GPA that may be required for admission to particular campuses and majors. The GPA is only one factor by which an applicant is evaluated. Other factors, such as course patterns, are also important.

Each campus has its own selection criteria used to select students when the number of applicants exceeds the number of spaces available.

**INTERSEGMENTAL GENERAL EDUCATION
TRANSFER CURRICULUM (IGETC)**

The Intersegmental General Education Transfer Curriculum (IGETC) consists of a series of courses that community college students can use to satisfy lower division general education requirements at a CSU or UC campus.

Certification of IGETC will permit the student to transfer from the community college to a campus in either the California State University or the University of California system without the need, after transfer, to take additional lower-division, general education courses to satisfy campus general education requirements.

The following courses have been approved by the Intersegmental Committee as fulfilling the IGETC requirements.

**LOWER-DIVISION TRANSFER
PATTERN (LDTP)**

The Lower-Division Transfer Pattern (LDTP) project, sponsored by the California State University (CSU) and supported by the California Community Colleges, presents potential transfer students with the most direct path to a bachelor's degree in the CSU system. The LDTP project provides a set of "road maps" for students to follow that will ensure appropriate academic

preparation and that will decrease time to graduation once LDTP students enter the CSU. Students may enter into an LDTP agreement up to the time they have completed 45 transferable units. Students who elect to follow the LDTP option will receive the highest priority for admission to a CSU campus.

"Highest priority for admission" is defined as a written guarantee of admission to a particular CSU campus and major, and it goes into effect when both the student and the CSU campus ratify an LDTP agreement. The guarantee is subject both to satisfactory completion of the agreement requirements and to the campus's ability to accommodate the student. Students will be asked to complete successfully a specified set of general education courses and major courses that will be common to all CSU campuses offering that major, and they will be asked to complete successfully an additional set of courses identified by the particular CSU campus named in the LDTP agreement. The coursework in the systemwide and campus-specific LDTP pattern will total at least 60 units, the number needed to transfer to CSU as an upper-division student.

Through CSUMentor and ASSIST, students and counselors will be able to find road maps detailing coursework preparation by CSU campus and major.

ADMISSION TO CALIFORNIA STATE UNIVERSITY SYSTEM

UPPER DIVISION TRANSFER REQUIREMENTS

If you have at least 60 transferable units completed by the time you enter a California State University, CSU, you are considered an upper division applicant. To make admissions decisions the CSU admissions offices look at three factors:

- Your college grades
- The college coursework you have completed especially in general education
- Whether you are in good standing at the last college or university attended

Finally, general education courses in the English language and mathematics areas must be completed with a level of "C" or better in each course. These four classes are part of the 30 semester units of general education.

Beginning Fall 2006, CSU campuses will be giving highest admission priority to California Community College upper division transfer students who have completed a Lower Division Transfer Pattern by Major (LDTPM). The LDTPM consists of completion of all lower division General Education Breadth courses and specific pre-major courses. Consult with a counselor for more information coming from the CSU.

GENERAL EDUCATION REQUIREMENTS FOR UPPER DIVISION TRANSFERS

More CSU campuses require students to complete 30 semester units of the General Education Breadth Requirements or the Intersegmental General Education Transfer Curriculum. Within either pattern, the highest priority classes are the three

courses in the English language-oral communication, English composition, and critical thinking- along with a general education course in mathematics.

Completion of general education courses prior to transfer is usually the most efficient path to transfer. You can complete a maximum of 39 semester units of CSU GE Breadth before transferring to a CSU.

If you are enrolled in a high-unit major such as engineering, some math based fields, science, and other technical majors, you will need to work closely with a counselor to plan which classes you should take for upper-division transfer.

CSU campuses do allow high-unit majors to take fewer general education courses before transfer. Just remember, ultimately you will need to meet the general education requirements in order to graduate.

"Certification" or "Partial Certification" of the General Education Breadth may be requested on a Transcript request form available in the Admissions and Records Office.

UPPER DIVISION GRADE REQUIREMENTS

Your overall grade point average must be at least 2.0 (2.40 for California non residents). You must have a minimum of 60 semester units and the GPA is calculated on all of your transfer units attempted to meet minimum admission requirements. Obviously, the better you prepare at San José City College the more likely you will meet admission requirements at your first-choice CSU campus.

CSU GENERAL EDUCATION BREADTH PATTERN 2008-2009

General Education Breadth agreements consist of those courses that a student can complete at a community college to satisfy the General Education Breadth requirements at a CSU campus. Some of these requirements are to be completed after transfer, but most of the 39 semester units are to be completed with a letter grade of "C" or better during the freshman and sophomore years. All of Area A and B4 must be completed prior to transferring.

CALIFORNIA ARTICULATION NUMBER SYSTEM (CAN)

San José City College participates in the CAN System. This system uses a common number to identify some of the transferable lower division, introductory courses commonly taught within each academic discipline at California college campuses. The system assures students that CAN courses on one participating campus will be accepted "in lieu of" the comparable CAN courses on another participating campus. For example, CAN AJ 2 on one campus will be accepted for CAN AJ 2 on another participating campus, while each campus retains its own course number.

The CAN designator is included in the course description chapter of this catalog. A list of participating colleges and their qualified courses is available at the CAN Web Page www.cansystem.org. Counselors are also available to assist students.
