- a. Committee review of late Comprehensive and Annual Program Review submissions

Amber listed those departments/divisions that had submitted their Comprehensive/Annual program reviews late. There were 12 programs with late or revised Comprehensive/Annual review submissions, and 3 programs which did not submit a review. Amber divided up the committee members present into working groups. Each working group was given either one comprehensive program review to review and validate or a number of annual reviews to review and validate.

Members worked on reviewing and validating the program reviews for most of the meeting.

The meeting adjourned at 3:30.
