U.S. Department of Education regulations on the Integrity of Federal Student Financial Aid Programs under Title IV of the Higher Education Act of 1965, as amended

**NOTE:** *The following procedure is legally required. Districts may insert local procedures for program and curriculum development, which may include or address procedures for new, added, provisional or experimental, reinstated, and deleted courses and procedures for changes in course number, title, units, or hours. Procedures for each action should, as good practice, address:*

- *initiation, review, approval, and evaluation processes and related criteria*
- *designated responsibility and authority for initiation, review, and approval of courses (e.g., the academic affairs office, academic senate, faculty, departments, related disciplines, divisions, curriculum committee, articulation officer, etc.)*
- *time lines and limits for the process*
- *publication of changes and maintenance of records*
- *use of a range of delivery systems and modes of instruction*

**NOTE:** *The following language is legally required in an effort to show good faith compliance with the applicable federal regulations.*

For purposes of federal financial aid eligibility, a “credit hour” shall be not less than:

- One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately 16 weeks for one semester of credit or the equivalent amount of work over a different amount of time; or
- At least an equivalent amount of work as required in the paragraph above, of this definition for other academic activities as established by the institution including

laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

The District will rely primarily upon the Academic Senate for all recommendations for new courses, changes, or revisions to existing courses, or other modifications of curriculum. These recommendations must be approved by the Curriculum Committee(s) prior to approval by the Board of Trustees and submission to the State Chancellor's Office as required.

### **Curriculum: Courses**

All course outlines of record will be updated at a minimum of every six years. For Career and Technical courses the cycle is two years. The Curriculum Committee(s) will publish an annual timeline for submission of new curriculum proposals and modifications.

### **Curriculum: Programs and Majors**

A. New programs may be proposed by faculty and/or administrative staff in any department/area following the procedure outlined in AP 3255 Program Evaluation.

B. New majors may be proposed by faculty in any department/area through the Curriculum Advisory Committee.

C. Modifications to existing program or major curricula follow the review procedures of the Curriculum Advisory Committee and/or the procedures outlined in AP 3255 Program Evaluation.

Curriculum Committee:

The primary responsibility of the Curriculum Committee is assuring academic excellence in curriculum matters by ensuring that curriculum is academically sound, comprehensive, and responsive to the evolving needs of the institution and the community. The Curriculum Committee approves:

- New and modified course proposals for Title 5 compliance
- Courses as they relate to programs of study
- Appropriate requisites
- CSU and UC general education proposals
- Policy changes pertaining to curricular issues
- Implementation of state regulations and guidelines pertaining to the curriculum development process
- Proposed programs of study
- Student Learning Outcomes

- ??????Anything Else??????

**Commented [TH1]:** Float this by the curriculum committees to make sure there are not more bullets

Ongoing review of courses and programs is conducted to maintain compliance with internal and external policies. Courses are reviewed on a six-year rotational cycle and updated as needed. CTE curriculum is updated on a two-year cycle.

In addition, the following positions may be considered appropriate positions to sit on the Curriculum Committee:

- Articulation officer
- Scheduling Coordinator
- SLO Coordinator
- Librarian
- Academic Senate Representative(s)
- Curriculum Chair
- Curriculum Coordinator
- The Chief Instructional Officer or designee will serve ex officio on the committee

SUBCHAPTER 1. PROGRAMS, COURSES AND CLASSES  
ARTICLE 1. PROGRAM, COURSE AND CLASS CLASSIFICATION AND STANDARDS

s 55002. Standards and Criteria for Courses.

(a) Degree-Applicable Credit Course. A degree-applicable credit course is a course which has been designated as appropriate to the associate degree in accordance with the requirements of section 55062, and which has been recommended by the college and/or district curriculum committee and approved by the district governing board as a collegiate course meeting the needs of the students.

(1) Curriculum Committee. The college and/or district curriculum committee recommending the course shall be established by the mutual agreement of the college and/or district administration and the academic senate. The committee shall be either a committee of the academic senate or a committee that includes faculty and is otherwise comprised in a way that is mutually agreeable to the college and/or district administration and the academic senate.

(2) Standards for Approval. The college and/or district curriculum committee shall recommend approval of the course for associate degree credit if it meets the following standards:

(A) Grading Policy. The course provides for measurement of student performance in terms of the stated course objectives and culminates in a formal, permanently recorded grade based upon uniform standards in accordance with section 55023. The grade is based on demonstrated proficiency in subject matter and the ability to demonstrate that proficiency, at least in part, by means of essays, or, in courses where the curriculum committee deems them to be appropriate, by problem solving exercises or skills demonstrations by students.

(B) Units. The course grants units of credit based upon a relationship specified by the governing board between the number of units assigned to the course and the number of lecture and/or laboratory hours or performance criteria specified in the course outline. The course also requires a minimum of three hours of student work per week, including class time for each unit of credit, prorated for short-term, extended term, laboratory and/or activity courses.

(C) Intensity. The course treats subject matter with a scope and intensity that requires students to study independently outside of class time.

(D) Prerequisites and Corequisites. When the college and/or district curriculum committee determines, based on a review of the course outline of record, that a student would be highly unlikely to receive a satisfactory grade unless the student has knowledge or skills not taught in the course, then the course shall require prerequisites or corequisites that are established, reviewed, and applied in accordance with the requirements of this article.

(E) Basic Skills Requirements. If success in the course is dependent upon communication or computation skills, then the course shall require, consistent with the provisions of this article, as prerequisites or corequisites eligibility for enrollment in associate degree credit courses in English and/or mathematics, respectively.

(F) Difficulty. The course work calls for critical thinking and the understanding and application of concepts determined by the curriculum committee to be at college level.

(G) Level. The course requires learning skills and a vocabulary that the curriculum committee deems appropriate for a college course.

(3) Course Outline of Record. The course is described in a course outline of record that shall be maintained in the official college files and made available to each instructor. The course outline of record shall specify the unit value the expected number of contact hours for the course as a whole, the prerequisites, corequisites or advisories on recommended preparation (if any) for the course, the catalog description, objectives, and content in terms of a specific body of knowledge. The course outline shall also specify types or provide examples of required reading and writing assignments, other outside-of-class assignments, instructional methodology, and methods of evaluation for determining whether the stated objectives have been met by students.

(4) Conduct of Course. Each section of the course is to be taught by a qualified instructor in accordance with a set of objectives and with other specifications defined in the course outline of record.

(5) Repetition. Repeated enrollment is allowed only in accordance with provisions of sections 51002, 55040-55043 and 58161.

(b) Nondegree-Applicable Credit Course. A credit course designated by the governing board as not applicable to the associate degree is a course which, at a minimum, is recommended by the college and/or district curriculum committee (the committee described and established under subdivision (a)(1) of this section) and is approved by the district governing board.

(1) Types of Courses. Nondegree-applicable credit courses are:

(A) nondegree-applicable basic skills courses as defined in subdivision (j) of section 55000;

(B) courses designed to enable students to succeed in degree-applicable credit courses (including, but not limited to, college orientation and guidance courses, and discipline-specific preparatory courses such as biology, history, or electronics) that integrate basic skills instruction throughout and assign grades partly upon the demonstrated mastery of those skills;

(C) precollegiate career technical preparation courses designed to provide foundation skills for students preparing for entry into degree-applicable credit career technical courses or programs;

(D) essential career technical instruction for which meeting the standards of subdivision (a) is neither necessary nor required.

(2) Standards for Approval. The college and/or district curriculum committee shall recommend approval of the course on the basis of the standards which follow.

(A) Grading Policy. The course provides for measurement of student performance in terms of the stated course objectives and culminates in a formal, permanently recorded grade based upon uniform standards in accordance with section 55023. The grade is based on demonstrated proficiency in the subject matter and the ability to demonstrate that proficiency, at least in part, by means of written expression that may include essays, or, in courses where the curriculum committee deems them to be appropriate, by problem solving exercises or skills demonstrations by students.

(B) Units. The course grants units of credit based upon a relationship specified by the governing board between the number of units assigned to the course and the number of lecture and/or laboratory hours or performance criteria specified in the course outline. The course requires a minimum of three hours of student work per week, per unit, including class time and/or demonstrated competency, for each unit of credit, prorated for short-term, extended term, laboratory, and/or activity courses.

(C) Intensity. The course provides instruction in critical thinking and generally treats subject matter with a scope and intensity that prepares students to study independently outside of class time and includes reading and writing assignments and homework. In particular, the assignments will be sufficiently rigorous that students successfully completing each such course, or sequence of required courses, will have acquired the skills necessary to successfully complete degree-applicable work.

(D) Prerequisites and corequisites. When the college and/or district curriculum committee deems appropriate, the course may require prerequisites or corequisites for the course that are established, reviewed, and applied in accordance with this article.

(3) Course Outline of Record. The course is described in a course outline of record that shall be maintained in the official college files and made available to each instructor. The course outline of record shall specify the unit value, the expected number of contact hours for the course as a whole, the prerequisites, corequisites or advisories on recommended preparation (if any) for the course, the catalog description, objectives, and content in terms of a specific body of knowledge. The course outline shall also specify types or provide examples of required reading and writing assignments, other outside-of-class assignments, instructional methodology, and methods of evaluation for determining whether the stated objectives have been met by students. Taken together, these course specifications shall be such as to typically enable any student who successfully completes all of the assigned work prescribed in the outline of record to successfully meet the course objectives.

(4) Conduct of Course. All sections of the course are to be taught by a qualified instructor in accordance with a set of objectives and with other specifications defined in the course outline of record.

(5) Repetition. Repeated enrollment is allowed only in accordance with provisions of sections 51002, 55040-55043 and 58161.

(c) Noncredit Course. A noncredit course is a course which, at a minimum, is recommended by the college and/or district curriculum committee (the committee described and established under subdivision (a)(1) of this section) and approved by the district governing board as a course meeting the needs of enrolled students.

(1) Standards for Approval. The college and/or district curriculum committee shall recommend approval of the course if the course treats subject matter and uses resource materials, teaching methods, and standards of attendance and achievement that the committee deems appropriate for the enrolled students. In order to be eligible for state apportionment, such courses must be approved by the Chancellor pursuant to article 2 (commencing with section 55150) of subchapter 2 of this chapter and satisfy the requirements of section 58160 and other applicable provisions of chapter 9 (commencing with section 58000) of this division.

(2) Course Outline of Record. The course is described in a course outline of record that shall be maintained in the official college files and made available to each instructor. The course outline of record shall specify the number of contact hours normally required for a student to complete the course, the catalog description, the objectives, contents in terms of a specific body of knowledge, instructional methodology, examples of assignments and/or activities, and methods of evaluation for determining whether the stated objectives have been met.

(3) Conduct of Course. All sections of the course are to be taught by a qualified instructor in accordance with the set of objectives and other specifications defined in the course outline of record.

(4) Repetition. Repeated enrollment is allowed only in accordance with provisions of section 58161.

(d) Community Services Offering. A community services offering must meet the following minimum requirements:

(1) is approved by the district governing board;

(2) is designed for the physical, mental, moral, economic, or civic development of persons enrolled therein;

(3) provides subject matter content, resource materials, and teaching methods which the district governing board deems appropriate for the enrolled students;

(4) is conducted in accordance with a predetermined strategy or plan;

(5) is open to all members of the community willing to pay fees to cover the cost of the offering; and

(6) may not be claimed for apportionment purposes.

(a) One credit hour of community college work requires a minimum of 48 hours of lecture, study, or laboratory work at colleges operating on the semester system or 33 hours of lecture, study or laboratory work at colleges operating on the quarter system.

(b) A course requiring 96 hours or more of lecture, study or laboratory work at colleges operating on the semester system or 66 hours or more of lecture, study, or laboratory work at colleges operating on the quarter system shall provide at least 2 units of credit.

(c) The amount of credit awarded shall be adjusted in proportion to the number of hours of lecture, study or laboratory work in half unit increments.

s 55003. Policies for Prerequisites, Corequisites and Advisories on Recommended Preparation.

(a) The governing board of a community college district may establish prerequisites, corequisites, and advisories on recommended preparation, but must do so in accordance with the provisions of this article. Nothing in this subchapter shall be construed to require a district to establish prerequisites, corequisites, or advisories on recommended preparation; provided however, that a prerequisite or corequisite shall be required if the course is to be offered for associate degree credit and the curriculum committee finds that the prerequisite or corequisite is necessary pursuant to sections 55002(a)(2)(D) or 55002(a)(2)(E).

(b) A governing board choosing to establish prerequisites, corequisites, or advisories on recommended preparation shall, in accordance with the provisions of sections 53200-53204, adopt policies for the following:

(1) The process for establishing prerequisites, corequisites, and advisories on recommended preparation. Such policies shall provide that in order to establish a prerequisite or corequisite, the prerequisite or corequisite must be determined to be necessary and appropriate for achieving the purpose for which it is being established. District policies shall also specify the level of scrutiny that shall be required in order to establish different types of prerequisites, corequisites, and advisories on recommended preparation. At a minimum, prerequisites, corequisites, and advisories on recommended preparation shall be based on content review, with additional methods of scrutiny being applied depending on the type of prerequisite or corequisite being established. The policy shall provide that the types of prerequisites described in subdivision (e) may be established only on the basis of data collected using sound research practices. Determinations about prerequisites and corequisites shall be made on a course-by-course or program-by-program basis.

(2) Procedures to assure that courses for which prerequisites or corequisites are established will be taught in accordance with the course outline of record, particularly those aspects of the course outline that are the basis for justifying the establishment of the prerequisite or corequisite.

(3) The process, including levels of scrutiny, for reviewing prerequisites and corequisites to assure that they remain necessary and appropriate. These processes shall provide that at least once each six years all prerequisites and corequisites established by the district shall be reviewed, except that prerequisites and corequisites for vocational courses or programs shall be reviewed every two years. These processes shall also provide for the periodic review of advisories on recommended preparation.

(4) The bases and process for an individual student to challenge the application of a prerequisite or corequisite.

(c) Prerequisites or corequisites may be established only for any of the following purposes:

(1) the prerequisite or corequisite is expressly required or expressly authorized by statute or regulation; or

(2) the prerequisite will assure, consistent with section 55002, that a student has the skills, concepts, and/or information that is presupposed in terms of the course or program for which it is being established, such that a student who has not met the prerequisite is highly unlikely to receive a satisfactory grade in the course (or at least one course within the program) for which the prerequisite is being established; or

(3) the corequisite course will assure, consistent with section 55002, that a student acquires the necessary skills, concepts, and/or information, such that a student who has not enrolled in the corequisite is highly unlikely to receive a satisfactory grade in the course or program for which the corequisite is being established; or

(4) the prerequisite or corequisite is necessary to protect the health or safety of a student or the health or safety of others.

(d) Except as provided in this subdivision, no prerequisite or corequisite may be established or renewed pursuant to subdivision (b)(3) unless it is determined to be necessary and appropriate to achieve the purpose for which it has been established. A prerequisite or corequisite need not be so scrutinized until it is reviewed pursuant to subdivision (b) (3) if:

(1) it is required by statute or regulation; or

(2) it is part of a closely-related lecture-laboratory course pairing within a discipline; or

(3) it is required by four-year institutions.

(e) A course in communication or computation skills may be established as a prerequisite or corequisite for any course other than another course in communication or computation skills only if, in addition to conducting a content review, the district gathers data according to sound research practices and shows that a student is highly unlikely to succeed in the course unless the student has met the proposed prerequisite or corequisite. If the curriculum committee initially determines, pursuant to section 55002(a)(2)(E), that a new course needs to have a communication or computation skill prerequisite or corequisite, then, despite subdivision (d) of this section, the prerequisite or corequisite may be established for a single period of not more than two years while the research is being conducted and the final determination is being made, provided that all other requirements for establishing the prerequisite or corequisite have been met. The requirements of this subdivision related to collection of data shall not apply when:

(1) baccalaureate institutions will not grant credit for a course unless it has the particular communication or computation skill prerequisite; or

(2) the prerequisite or corequisite is required for enrollment in a program, that program is subject to approval by a state agency other than the Chancellor's Office and both of the following conditions are satisfied:

(A) colleges in at least six different districts have previously satisfied the data collection requirements of this subdivision with respect to the same prerequisite or corequisite for the same program; and

(B) the district establishing the prerequisite or corequisite conducts an evaluation to determine whether the prerequisite or corequisite has a disproportionate impact on particular groups of students described in terms of race, ethnicity, gender, age or disability, as defined by the Chancellor. When there is a disproportionate impact on any such group of students, the district shall, in consultation with the Chancellor, develop and implement a plan setting forth the steps the district will take to correct the disproportionate impact.

(f) Prerequisites, corequisites, and advisories on recommended preparation must be identified in college publications available to students as well as the course outline of any course for which they are established.

(g) Prerequisites establishing communication or computational skill requirements may not be established across the entire curriculum unless established on a course-by-course basis.

(h) The determination of whether a student meets a prerequisite shall be based on successful completion of an appropriate course or on an assessment using multiple measures. Any assessment instrument shall be selected and used in accordance with the provisions of subchapter 6 (commencing with Section 55500) of this chapter.

(i) If a prerequisite requires precollegiate skills in reading, written expression, or mathematics, the governing board of a district shall ensure that nondegree-applicable basic skills courses designed to teach the required skills are offered with reasonable frequency and that the number of sections available is reasonable given the number of students who are required to meet the associated skills prerequisites and who diligently seek enrollment in the prerequisite course.

(j) Whenever a corequisite course is established, sufficient sections shall be offered to reasonably accommodate all students who are required to take the corequisite. A corequisite shall be waived as to any student for whom space in the corequisite course is not available.

(k) No exit test may be required to satisfy a prerequisite or corequisite unless it is incorporated into the grading for the prerequisite or corequisite course.

(l) The determination of whether a student meets a prerequisite shall be made prior to his or her enrollment in the course requiring the prerequisite, provided, however, that enrollment may be permitted pending verification that the student has met the prerequisite or corequisite. If the verification shows that the student has failed to meet the prerequisite, the student may be involuntarily dropped from the course if the applicable enrollment fees are promptly refunded.

Otherwise a student may only be involuntarily removed from a course due to excessive absences or as a result of disciplinary action taken pursuant to law or to the student code of conduct.

(m) Any prerequisite or corequisite may be challenged by a student on one or more of the grounds listed below. The student shall bear the initial burden of showing that grounds exist for the challenge. Challenges shall be resolved in a timely manner and, if the challenge is upheld, the student shall be permitted to enroll in the course or program in question. Grounds for challenge are:

(1) The prerequisite or corequisite has not been established in accordance with the district's process for establishing prerequisites and corequisites;

(2) The prerequisite or corequisite is in violation of this section;

(3) The prerequisite or corequisite is either unlawfully discriminatory or is being applied in an

unlawfully discriminatory manner;

(4) The student has the knowledge or ability to succeed in the course or program despite not meeting the prerequisite or corequisite;

(5) The student will be subject to undue delay in attaining the goal of his or her educational plan because the prerequisite or corequisite course has not been made reasonably available; or

(6) Such other grounds for challenge as may be established by the district governing board.

(n) In the case of a challenge under subdivision (m)(3) of this section, the district shall promptly advise the student that he or she may file a formal complaint of unlawful discrimination pursuant to subchapter 5 (commencing with section 59300) of chapter 10 of this division. If the student elects to proceed with the challenge, completion of the challenge procedure shall be deemed to constitute an informal complaint pursuant to section 59327.

(o) District policies adopted pursuant to this section shall be submitted to the Chancellor as part of the district's matriculation plan pursuant to section 55510.

Students needing additional instruction in the subject matter while enrolled in a course may be referred for individualized tutoring pursuant to section 58170 or supplemental learning assistance pursuant to sections 58172 and 58164.

(b) A district may not permit a student to enroll in two or more courses where the meeting times for the courses overlap, unless the district has established and incorporated into its attendance accounting procedures adopted pursuant to section 58030 a mechanism for ensuring that the following requirements are satisfied:

(1) the student provides a sound justification, other than mere scheduling convenience, of the need for the overlapping schedule;

(2) an appropriate district official approves the schedule;

(3) the college maintains documentation describing the justification for the overlapping schedule and showing that the student made up the hours of overlap in the course partially or wholly not attended as scheduled at some other time during the same week under the supervision of the instructor of the course.

## **Standard II: Student Learning Programs and Support Services**

The institution offers instructional programs, library and learning support services, and student support services aligned with its mission. The institution's programs are conducted at levels of quality and rigor appropriate for higher education. The institution assesses its educational quality through methods accepted in higher education, makes the results of its assessments available to the public, and uses the results to improve educational quality and institutional effectiveness. The institution defines and incorporates into all of its degree programs a substantial component of general education designed to ensure breadth of knowledge and to promote intellectual inquiry. The provisions of this standard are broadly applicable to all instructional programs and student and learning support services offered in the name of the institution.

### **A. Instructional Programs**

1. All instructional programs, regardless of location or means of delivery, including distance education and correspondence education, are offered in fields of study consistent with the institution's mission, are appropriate to higher education, and culminate in student attainment of identified student learning outcomes, and achievement of degrees, certificates, employment, or transfer to other higher education programs. (ER 9 and ER 11)

2. Faculty, including full time, part time, and adjunct faculty, ensure that the content and methods of instruction meet generally accepted academic and professional standards and expectations. Faculty and others responsible act to continuously improve instructional courses, programs and directly related services through systematic evaluation to assure currency, improve teaching and learning strategies, and promote student success.
3. The institution identifies and regularly assesses learning outcomes for courses, programs, certificates and degrees using established institutional procedures. The institution has officially approved and current course outlines that include student learning outcomes. In every class section students receive a course syllabus that includes learning outcomes from the institution's officially approved course outline.
4. If the institution offers pre-collegiate level curriculum, it distinguishes that curriculum from college level curriculum and directly supports students in learning the knowledge and skills necessary to advance to and succeed in college level curriculum.
5. The institution's degrees and programs follow practices common to American higher education, including appropriate length, breadth, depth, rigor, course sequencing, time to completion, and synthesis of learning. The institution ensures that minimum degree requirements are 60 semester credits or equivalent at the associate level, and 120 credits or equivalent at the baccalaureate level. (ER 12)
6. The institution schedules courses in a manner that allows students to complete certificate and degree programs within a period of time consistent with established expectations in higher education. (ER 9)
7. The institution effectively uses delivery modes, teaching methodologies and learning support services that reflect the diverse and changing needs of its students, in support of equity in success for all students.
8. The institution validates the effectiveness of department-wide course and/or program examinations, where used, including direct assessment of prior learning. The institution ensures that processes are in place to reduce test bias and enhance reliability.
9. The institution awards course credit, degrees and certificates based on student attainment of learning outcomes. Units of credit awarded are consistent with institutional policies that reflect generally accepted norms or equivalencies in higher education. If the institution offers courses based on clock hours, it follows Federal standards for clock-to-credit-hour conversions. (ER 10)
10. The institution makes available to its students clearly stated transfer-of-credit policies in order to facilitate the mobility of students without penalty. In accepting transfer credits to fulfill degree requirements, the institution certifies that the expected learning outcomes for transferred courses are comparable to the learning outcomes of its own courses. Where patterns of student enrollment between institutions are identified, the institution develops articulation agreements as appropriate to its mission. (ER 10)
11. The institution includes in all of its programs, student learning outcomes, appropriate to the program level, in communication competency, information competency, quantitative competency, analytic inquiry skills, ethical reasoning, the ability to engage diverse perspectives, and other program-specific learning outcomes.
12. The institution requires of all of its degree programs a component of general education based on a carefully considered philosophy for both associate and baccalaureate degrees that is clearly stated in its catalog. The institution, relying on faculty expertise, determines the appropriateness of each course for inclusion in the general education curriculum, based upon student learning outcomes and competencies

appropriate to the degree level. The learning outcomes include a student's preparation for and acceptance of responsible participation in civil society, skills for lifelong learning and application of learning, and a broad comprehension of the development of knowledge, practice, and interpretive approaches in the arts and humanities, the sciences, mathematics, and social sciences. (ER 12)

13. All degree programs include focused study in at least one area of inquiry or in an established interdisciplinary core. The identification of specialized courses in an area of inquiry or interdisciplinary core is based upon student learning outcomes and competencies, and include mastery, at the appropriate degree level, of key theories and practices within the field of study.

14. Graduates completing career-technical certificates and degrees demonstrate technical and professional competencies that meet employment standards and other applicable standards and preparation for external licensure and certification.

15. When programs are eliminated or program requirements are significantly changed, the institution makes appropriate arrangements so that enrolled students may complete their education in a timely manner with a minimum of disruption.

16. The institution regularly evaluates and improves the quality and currency of all instructional programs offered in the name of the institution, including collegiate, pre-collegiate, career-technical, and continuing and community education courses and programs, regardless of delivery mode or location. The institution systematically strives to improve programs and courses to enhance learning outcomes and achievement for students.

[PART 602—THE SECRETARY'S RECOGNITION OF ACCREDITING AGENCIES](#)

[Subpart B—The Criteria for Recognition](#)

---

#### **§602.24 Additional procedures certain institutional accreditors must have.**

If the agency is an institutional accrediting agency and its accreditation or preaccreditation enables those institutions to obtain eligibility to participate in Title IV, HEA programs, the agency must demonstrate that it has established and uses all of the following procedures:

(a) *Branch campus.* (1) The agency must require the institution to notify the agency if it plans to establish a branch campus and to submit a business plan for the branch campus that describes—

- (i) The educational program to be offered at the branch campus;
- (ii) The projected revenues and expenditures and cash flow at the branch campus; and
- (iii) The operation, management, and physical resources at the branch campus.

(2) The agency may extend accreditation to the branch campus only after it evaluates the business plan and takes whatever other actions it deems necessary to determine that the branch campus has sufficient educational, financial, operational, management, and physical resources to meet the agency's standards.

(3) The agency must undertake a site visit to the branch campus as soon as practicable, but no later than six months after the establishment of that campus.

(b) *Change in ownership.* The agency must undertake a site visit to an institution that has undergone a change of ownership that resulted in a change of control as soon as practicable, but no later than six months after the change of ownership.

(c) *Teach-out plans and agreements.* (1) The agency must require an institution it accredits or preaccredits to submit a teach-out plan to the agency for approval upon the occurrence of any of the following events:

(i) The Secretary notifies the agency that the Secretary has initiated an emergency action against an institution, in accordance with section 487(c)(1)(G) of the HEA, or an action to limit, suspend, or terminate an institution participating in any title IV, HEA program, in accordance with section 487(c)(1)(F) of the HEA, and that a teach-out plan is required.

(ii) The agency acts to withdraw, terminate, or suspend the accreditation or preaccreditation of the institution.

(iii) The institution notifies the agency that it intends to cease operations entirely or close a location that provides one hundred percent of at least one program.

(iv) A State licensing or authorizing agency notifies the agency that an institution's license or legal authorization to provide an educational program has been or will be revoked.

(2) The agency must evaluate the teach-out plan to ensure it provides for the equitable treatment of students under criteria established by the agency, specifies additional charges, if any, and provides for notification to the students of any additional charges.

(3) If the agency approves a teach-out plan that includes a program that is accredited by another recognized accrediting agency, it must notify that accrediting agency of its approval.

(4) The agency may require an institution it accredits or preaccredits to enter into a teach-out agreement as part of its teach-out plan.

(5) The agency must require an institution it accredits or preaccredits that enters into a teach-out agreement, either on its own or at the request of the agency, to submit that teach-out agreement for approval. The agency may approve the teach-out agreement only if the agreement is between institutions that are accredited or preaccredited by a nationally recognized accrediting agency, is consistent with

applicable standards and regulations, and provides for the equitable treatment of students by ensuring that—

(i) The teach-out institution has the necessary experience, resources, and support services to—

(A) Provide an educational program that is of acceptable quality and reasonably similar in content, structure, and scheduling to that provided by the institution that is ceasing operations either entirely or at one of its locations; and

(B) Remain stable, carry out its mission, and meet all obligations to existing students; and

(ii) The teach-out institution demonstrates that it can provide students access to the program and services without requiring them to move or travel substantial distances and that it will provide students with information about additional charges, if any.

(d) *Closed institution.* If an institution the agency accredits or preaccredits closes without a teach-out plan or agreement, the agency must work with the Department and the appropriate State agency, to the extent feasible, to assist students in finding reasonable opportunities to complete their education without additional charges.

(e) *Transfer of credit policies.* The accrediting agency must confirm, as part of its review for initial accreditation or preaccreditation, or renewal of accreditation, that the institution has transfer of credit policies that—

(1) Are publicly disclosed in accordance with §668.43(a)(11); and

(2) Include a statement of the criteria established by the institution regarding the transfer of credit earned at another institution of higher education.

(f) *Credit-hour policies.* The accrediting agency, as part of its review of an institution for initial accreditation or preaccreditation or renewal of accreditation, must conduct an effective review and evaluation of the reliability and accuracy of the institution's assignment of credit hours.

(1) The accrediting agency meets this requirement if—

(i) It reviews the institution's—

(A) Policies and procedures for determining the credit hours, as defined in 34 CFR 600.2, that the institution awards for courses and programs; and

(B) The application of the institution's policies and procedures to its programs and coursework; and

(ii) Makes a reasonable determination of whether the institution's assignment of credit hours conforms to commonly accepted practice in higher education.

(2) In reviewing and evaluating an institution's policies and procedures for determining credit hour assignments, an accrediting agency may use sampling or other methods in the evaluation, sufficient to comply with paragraph (f)(1)(i)(B) of this section.

(3) The accrediting agency must take such actions that it deems appropriate to address any deficiencies that it identifies at an institution as part of its reviews and evaluations under paragraph

(f)(1)(i) and (ii) of this section, as it does in relation to other deficiencies it may identify, subject to the requirements of this part.

(4) If, following the institutional review process under this paragraph (f), the agency finds systemic noncompliance with the agency's policies or significant noncompliance regarding one or more programs at the institution, the agency must promptly notify the Secretary.

(1) The State agency meets this requirement if—

(i) It reviews the institution's—

(A) Policies and procedures for determining the credit hours, as defined in 34 CFR 600.2, that the institution awards for courses and programs; and

(B) The application of the institution's policies and procedures to its programs and coursework; and

(ii) Makes a reasonable determination of whether the institution's assignment of credit hours conforms to commonly accepted practice in higher education.
