**B. SJCC New Course Proposals**

1. **APE 501: Adapted Low-Impact Swimming for Health—Noncredit**
   Description: This course is designed for students with disabilities. Personalized programs will include instruction in water safety, aquatic exercise and basic swimming skills. Programs will address the limitations of individual disability. Emphasis is on encouraging independence through the teaching of lifelong fitness skills.

2. **ESL 099: Advanced Reading and Writing—6 Units**
   Description: Students will write a variety of texts that exhibit depth, relevance, and complexity in idea development. Students will also apply literal, inferential, interpretive reading, and critical thinking skills, likewise, enhance skills in vocabulary comprehension and acquisition and the advanced level of language learning. Reading materials will highlight current issues and topics of interest across cultures and will include literary works, articles, essays, and a technical report. This course is designed for non-native speakers of English.

**B. SJCC New Program Proposal**

1. **Nutrition and Dietetics Associate in Science for Transfer—60 Units**
   Description: This degree prepares students to transfer to Nutrition and Dietetics four-year programs, and provides students opportunities to become dietitians, nutrition counselors, nutrition educators, and sports nutritionists. Nutrition is critical to medicine, health, and physical fitness: professions with rapid growth and demand.
